Spa institution governance and its influence on the rights and obligations of patients of the spa treatment facility

Summary

The article presents the institution of corporate governance in spa treatment entities that conduct organized activities in the field of providing spa health care services and spa rehabilitation. Using the term health resort management adopted for the purposes of this study, attention is drawn to the general administrative powers of the health resort authorities towards users (patients). There is no doubt that this sovereignty is necessary to achieve the objectives of a given entity. In the case presented here, the goal of the health resort treatment facility is to conduct spa treatment and to provide patients with guaranteed health services in this area. This study confirms that the acts of corporate law include organizational regulations and the statute of the health resort in the health resort. Against their background, reference is made to the problem of compliance with the corporate governance guaranteed by authoritative legal measures.

The aim of the study is to analyze and evaluate the legal regulations concerning the authority used in the spa treatment facility. In this matter, the concept and essence of the institution of corporate governance on the grounds of doctrine and jurisprudence are discussed, and a catalog of features typical of spa company governance is indicated. The institution of the company regulations and statutes of the spa treatment facility is also examined, indicating the characteristics and legal nature of the standards established by company bodies, in terms of both the legal forms of operation of the facility and the sources of law. The issues of users and the use of a spa treatment facility allow for the indication of the rights and obligations of users of this type of facility, along with showing doubts regarding the issue of paying fees for health services in the field of spa treatment or spa rehabilitation.
